## DETAILED ACTION

### ***Information Disclosure Statement***

No Information Disclosure Statement (IDS) included in the application.

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Appropriate correction is required.

### ***Specification***

The disclosure is objected to because of the following informalities:

On Page 2, Lines 11 – 12: “ ....as described in Patent document 1.....”

There is no Patent document 1.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 –5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 1:

The phrase "predetermined processing" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.

With respect to claims 3 & 4:

Regarding claims 3 & 4, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

#### ***Allowable Subject Matter***

Claims 2 & 5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of

the limitations of the base claim and any intervening claims.
